

WATER EDUCATION FOR ALL

San Diego Coastkeeper's new water education program provides the tools necessary for formal and informal educators to teach children about critical water issues.

Teaches STEM in San Diego

Students gain an understanding of San Diego ecology and develop skills to use science and technology to monitor and minimize pollution in habitats.

Promotes Importance of Clean Water

While discovering the importance of clean water, children develop a sense of water stewardship to prepare our future workforce, lifestyle and health.

Provides Vital Educational Resources

Our environmental lessons align to Common Core and Next Generation Science Standards to teach K-12 students inside and outside the classroom.

With our kits, students will learn:

Water conservation

Local habitats & Ecosystems

Water Supply

Environmental Stewardship

Pollution Effects & Prevention

Climate Change

To receive your FREE lessons, please email slebron@sdcoastkeeper.org or call 619- 758-7743 ext.125. To learn more visit www.sdcoastkeeper.org.
