Help Confirm Don Benninghoven to California Fish and Game
Please support the commissioner who champions marine protected areas

Sacramento politicians are putting the future of marine protected areas in southern California at risk by not prioritizing the confirmation of Fish and Game Commissioner Don Benninghoven.

As we come into the final months before the California Fish and Game Commission approves the first science-based network of marine protected areas in Southern California, now is not the time for Sacramento to be dragging their feet. Marine

protected areas are a crucial part of preserving our underwater ecosystems and coastal economies for the future generations.

Commissioner Benninghoven has been a champion of marine protected areas and brings to the Commission the perspective of a lifelong outdoorsman, hunter and fisherman. Mr. Benninghoven's interest in constructive, balanced solutions, his commitment to conservation and sustainability of California's fish and wildlife, and his knowledge of coastal and ocean issues make him a much needed asset on the Commission.
