WHAT'S YOUR LEGACY?

WE STARTED OUR
LEGACY IN 1995.

Whatever your _____able is, join Coastkeeper in making history.

It began with stopping the City of San Diego's daily sewage spills. Today, we work with cities and agencies countywide to convert our wastewater and runoff into environmental and economic resources.

1995

2000

2005

- COACHED THE ENVIRONMENTAL LEADERS OF TOMORROW
- REMOVED 1.2 MILLION POUNDS OF DEBRIS
- SHUT DOWN THE POLLUTING SOUTH BAY POWER PLANT

In 2007, we joined the City of San Diego and San Diego Unified School District to create a school curriculum about water science and pollution prevention. Today our science education and teacher training program reaches tens of thousands of students across the county.

2010

In 2010, our years of activism created San Diego's protected underwater parks. Now, we collaborate with stormwater management programs to prevent urban runoff from ruining the county's water quality, including in our new protected areas.

2015

Our timeline doesn't stop here. With your support and membership, we're unstoppable in these actions to achieve fishable, swimmable and drinkable waters for all to use and enjoy.

- TRAINED THOUSANDS OF VOLUNTEERS
- REDUCED SEWAGE SPILLS IN CITY OF SAN DIEGO BY 90% IN A 10-YEAR PERIOD
